DBBL Nexus Pay Payment Process

For DBBL Nexus Card Payment, you must have SecurID Token (Hardware or Software Token). If you don't have SecurID Token, please collect it from bank firts or call 16216 for help.

Token Code
Token Code Lifetime Indicator

What is SecurID Token (2FA)?

DBBL 2FA (Two-Factor Authentication) is an additional layer of security that provides a second verification of your online identity. This verification is done using SecurID Tokens. This new feature increases the security of your accounts. There are 2 types of token (Hard-ware and Software token) Bank offered to make a secure transaction.

Why SecurID Token (2FA)?

2FA is required to prevent unauthorized users from gaining access of your account with nothing more than a stolen password. Users are greater risk of compromised passwords than they realize, particularly if they use the same password on more than one website.

1. After checking your ticket carefully then click on "I agree". Then Click on "Pay Now". This following page will appear . Please select and Click on "DBBL Nexus" Which one you would like to use as payment Gateway
